# ADDITIONAL INFORMATION

Here are some answers to FAQ's and some basic principles we need to follow to ensure a great finished product, returned in a timely fashion.

## **We process only boneless "sausage ready" meat**

At this time, we only process boneless, sausage ready meat. Sausage ready means that it is trimmed of all uneatable sinew and bone. It is free from debris like hair, dirt, and grass etc. Bullet or shot fragments are EXTREMELY damaging to our equipment. If there is any bullet or shot fragments found we will have to cease production and return your meat to you.

You get back what you bring in. We reserve the right to refuse soiled meat.

## **10kg of lean meat minimum**

We request 10kg of whole muscle meat or trimmings minimum to make a batch. Generally speaking, we add 15-20% pork and/or beef fat to the lean meat base.

## **Prices are based on finished weight of sausage**

In order to ensure that our goals align with yours we base our prices on finished product weight.

## **Prices are based on unpackaged product**

If you would like your product packaged add \$1.50/kg for vacuum packaging.

## **Drop Off's & Pick Up's**

. Pick-ups and drop-offs are between 6:00am and 3:30pm and are by scheduled appointment only. It can take 3-4 weeks to process custom orders. Please be patient, WE WILL CALL YOU when it is ready. Please have a plan for storage of product upon completion. We charge \$5/day for storage starting 1 week after notification of completion.

## **Payment**

Upon completion of your order you will be notified of the total amount owing and you can then pay by cash, credit or debit card at pick up.
